

The Power of Pink

October is National Breast Cancer Awareness Month (NBCAM)

The color pink helps remind us of the importance of breast cancer prevention and early detection. It also reminds us about the importance of a healthy lifestyle and solid, skilled medical care.

As part of the health care team, dentistry continues to be recognized as an increasingly critical touchpoint for general health screenings such as blood pressure checks, oral cancer exams, and sleep/bruxism assessments. By

wearing and using pink products in your practice during the month of October, you can show your practice's focus and dedication to the overall health of your patients.

To help you show support for NBCAM and the overall welfare of your patients, we have included this shopping list of pink products. We hope it will encourage you to bring pink into your practice as a "can't miss" symbol of your concern about the overall care and health of your patients. Please consult your Burkhart Account Manager or Customer Service Representative if you need any assistance.
