**ZB ZEKRYA BURS**

151-Z and 151L-Z (Zekrya) Bur provides exceptionally smooth cutting and greater efficiency for surgical procedures.

Zekrya Bur features a 6 helical bladed cutting edge design and solid carbide construction which delivers exceptional concentricity and reduced vibrations. SS White Zekrya Burs provide superior cutting performance for oral surgery procedures including sectioning wisdom teeth, separating roots and removing broken root stump. Zekrya Burs can also be used endodontically to reduce cusps on molars to create easy endodontic access.

**T10 METAL & CROWN CUTTING BURS**

T-10 Metal Cutting Burs for crown removal.

With an improved design of the TriHawk Talon 10 Bur, the SS White T-10 burs offer greater cutting efficiency and increased durability. The T-10 Bur can cut vertically as well as horizontally, making it ideal for use in procedures where access is limited. Use the T-10 for metal cutting, cavity prep, crown removal as well as creating endodontic access.

**TF TRIMMING & FINISHING BURS**

12-Blade Finishing Burs

SS White 12 Blade trimming/finishing bur with premium quality solid tungsten provide faster and smoother cutting. Twelve bladed finishing burs provide a smooth finish on composite, amalgam, enamel and dentin. The flame shape of the 48L and 283 make these burs ideal bur for use in orthodontic debonding procedures. Carbide finishing burs create a smoother surface finish on most dental materials when compared to diamond instruments.
