

When route slips are used, draw an "X", and fill in the number of 10-minute units needed so that restorative scheduling is less chaotic and more productive.

Crown prep example:

Procedural Timing Reference

Provider: _____

Date: _____

Procedure	Assistant Time	Doctor Time	Assistant Time
Example: Crown Prep	3*	6*	3*

	*10-minute unit	ts of time	

Please reach out to the Practice Support Team for additional support and customized scheduling strategies.

Use your own practice data to determine daily production goals and time blocks needed. Dr. Joe Sample
