Let's talk about HIPAA.

Course Description

This course is for all members of the dental team and is designed to educate participants on the requirements for HIPAA compliance in their facilities. Included will be the following:

- Review components of the Privacy Standard
- Review responsibilities under the Security Standard
- Define Protected Health Information (PHI) and how to safeguard it
- Understand required hardware/software components
- Review the assignment of responsibilities
- Understand required forms and documentation
- Understand how to conduct a risk assessment
- Review business associate responsibilities
- Understand security risks and how to mitigate them
- Define a security breach and know when/how it must be reported
- Be aware of steps to take in the event of a HIPAA inspection
- Understand your options if you receive a HIPAA citation and fine

Each Participant will receive:

- HIPAA Workbook
- HIPAA Compliance Audit Check List

In addition, attendees will learn about the use of consent forms, authorization forms and business associate agreements.

Let's talk about OSHA & Infection Control.

Course Objectives

OSHA requires an annual retraining session for all employees. This course will help fulfill these requirements and will update participants on the latest from OSHA, including the Globally Harmonized System (GHS) for Hazard Communication and the Bloodborne Disease Pathogens Standard. In addition, the course will cover the Centers for Disease Control and Prevention Infection Control Guidelines for Dentistry and will review best practices for infection control during the COVID-19 pandemic period.

Other topics covered include Subparts of the OSH Act that apply to dentistry including:

- Means of egress
- Ionizing radiation
- Non-ionizing radiation
- Electrical safety
- Fire safety and first aid
- Hazardous materials
- Ventilation
- Record-keeping
- Dental unit water quality and testing requirements

Each participant will receive:

- OSHA Workbook
- OSHA Compliance Audit Check List
- Infection Control Compliance Audit Check List

Information will also be provided on how to react to an OSHA inspection of your office and how to assign tasks to key staff members so that they can assist you in achieving compliance.

Karson L. Carpenter, DDS

Karson L. Carpenter serves as President of Compliance Training Partners. He is an OSHA approved trainer who has for over 25 years designed educational programs to bring dental facilities into compliance with the governmental regulations that affect them in the areas of OSHA, HIPAA and infection control. His experience includes guiding numerous clients across the United States through OSHA and HIPAA inspections as well as the critical post-inspection process.
