

FirstClass Offers Two 3D Case Design Choices with Pricing

Advanced Software (Motion Viewer) \$99

Motion Viewer is a powerful tool for professionals to enable them to have full control over treatment planning. This addresses practices who use advanced case design software.

Standard Software (Onyx) \$125

Designed by our doctors to ensure all aspects of the patient's treatment is covered, enabling doctors to use our experts to design the treatment plans, whilst still being able to provide feedback directly to our doctors through the portal.
